### Telephone Company Petitioning for Rate Raise

A substantial hike in rates in the Elba telephone system will be proposed by the United Telephone and Telegraph Co. of Alabama. The company stated it would expect five times the gross annual revenue from such lines to build them. If cost of construction goes over that, the subscriber would be asked to pay the excess. A three-year contract could be required as well as the deposit of one year's rental on the sub-cribers' telephone. If the company wanted six percent interest on the deposit but in case the subscriber didn't keep the phone for the full deposit period, the company could retain the entire deposit.

There it will be decided whether or not rate increases will be granted and if approved will be given for changing the type of local exchange service at New Brockton, Midland City, Pinckard, Newton, Enterprise, Geneva and Andalusia. Sanction of the issuance of a \$1.5 million First Mortgage Sinking Fund Bonds is also sought. Purpose for which the company is seeking the money, the petition states, is to change the type of service offered at the towns named above, improve it in others and get better toll and rural service.

In the petition which covers four legal size pages of paper typed single space, the telephone company makes the following points:

1. It operates 24 exchanges and provides rural service in its territory.
2. The company's investment is approximately \$3,918,427.11. Property is located in 10 counties viz: Houston, Henry, Dale, Coffee, Geneva, Covington, Crenshaw, Pike, Butler and Conecuh. Physical property includes 24 exchanges and 11,665 lines; 655 miles of toll pole lines; 4,466 miles of rural telephone lines with 2,233 rural telephone lines; 21,827 stations in service; buildings, material, trucks and other items needed to service the lines.
3. Increases in costs of labor, material and expense involved in providing additional plant facilities have destroyed the basis upon which present rates are based. This resulted in a constantly declining rate of return on its business.
4. More telephone service has been provided to company subscribers than any time in its history. Telephones have increased from 4,738 in 1940 to 21,827 as of Feb. 28, 1955. Completed toll messages per month during 1955 have averaged 12,908. Between Jan. 1, 1949 and Feb. 28, 1955, 1,555 new telephones were installed. Since Feb. 28, 1955, 6,400 new telephones were installed and the company has many unfiled applications over the entire system.
5. The company's earnings under existing low rates are grossly inadequate and insufficient to attract the additional capital necessary to carry out essential service, improvement and expansion.
6. Dial exchanges are promised New Brockton, Midland City, Pinckard, Newton, Enterprise, Geneva, and Andalusia and enlarged and improved service are promised for Dothan, Elba, Columbia, Slocumb, Ozark and Greenville. Toll and rural service would be enlarged and improved.
7. To put in effect the proposed changes, it will be necessary for United to borrow not more than \$1.5 million. All money borrowed from the sale of the bonds is promised to be used for improvements outlined and nothing else.

Charges on moves and changes would be: outside move, main business, \$3.50-4.00; outside move, main residence, 3.00-3.50; outside move, business extension, 2.00-2.50; outside move, residence extension, 1.50-2.00; inside move, main station, 2.25-2.50; inside move, business extension, 2.00-2.25; inside move, residence extension, 1.50-1.75; change in type or style of telephone, 1.25-1.50; change in name, 1.25-1.50.

Personally, we would a lot rather be paying \$3.75 per month for a one party line in our home than the present \$1.50 for a four party line. As far as The Elba Clipper is concerned, the telephone bill is a very small part of our overhead and if the rate was raised from its present \$1.75 to \$7.50 as proposed, it wouldn't force us into bankruptcy. However, when it becomes necessary for us to make a long distance call to another city, we go and we want to be able to hear the party on the other end without getting cross talk and a lot of buzzing in the line.

We have no objection to United Telephone Co. getting the rate raise they seek provided they raise their service to satisfactory standards. The PSC should give the utility ample time to make the improvements promised and then call another public hearing to see if the public is satisfied with the service. Action of some kind should then be taken if United has not lived up to its promises.

Reeves Furniture Co., W. H. Prescott, welding, machine shop Windham Lumber Co.

The 1955 directory carried names of three new manufacturers for the town. They were Worth Supply Co., Windham Packing Co. and Elba Milling Co.

Two more firms that could have been listed were Southern Building & Supply and Pea River Milling Co.

Of most interest, however, are the names of the companies that no longer appear. They are H. S. Chappel, Bina Ice Cream Co., Elba Textile Co. and Windham Lumber Co. Since information for the book was assembled, Reeves Furniture Co. was closed from the local scene by a fire and Bina Ice Cream Co. was staggered with an expensive blaze. Also, City Ice & Cold Storage has stopped the manufacture of ice.

While 12 manufacturing establishments were listed for Elba in 1952, only 10 were carried in 1955. Of these 10, seven had survived the short period of three years and three were new.

It would be impossible to tell whether Elba had a net gain or loss in the changes unless a close audit was made of all the businesses concerned. The town misses the payroll from Elba Textile but at the same time Dorsey Trailers have added a substantial number of men to their working force. Smaller businesses that have come and gone from the town probably balance each other out insofar as employment and income are concerned.

Only one thing can be ascertained for sure. That is that the local scene is not static. Nothing is certain about today's markets with science moving as rapidly as it is. No town, business or individual can afford to sit back and think the cat is in the bag for them. Circumstances far removed from their control can change everything overnight, for better or for worse.

## SODA FOUNTAIN

Fe find it necessary to do so in order that we may devote our full time to our Drug and Prescription business.

We wish to thank the hundreds of customers who have enjoyed our fountain service for the past few years, but we feel we could better serve the people of Elba and Coffee County in the future by devoting our full time to the other parts of the Business.

To our many customers whose continuing patronage of our Prescription Department and other departments has made this step necessary, we are now in a better position than ever to give you prompt, efficient and reliable service.

**Mrs. James Martin**  
**Fetes Wesley Circle**

The Susannah Wesley Circle met at the home of Mrs. James Martin Monday night of last week. Mrs. Lamar Rainer Jr. was in charge of the program.

A delicious desert plate was enjoyed by Mesdames Myrtle Sellers, Marjorie Rainer, Mary Alice Wise, Helen Rainer, Emma Margaret Inman, Louise Cooper, Peggy Devane, Dot Edgar and the hostess, Mrs. Martin.

Mrs. Paul Rowe Brannon and children of Montgomery spent the weekend with her parents, Mr. & Mrs. Moley Boutwell.

Mr. & Mrs. Kay Farris of Montgomery spent last week end in the home of Mr. & Mrs. J. D. Smith.

Mr. & Mrs. C. Y. Martin, Mr. & Mrs. Claude Martin and Mr. & Mrs. Bill Martin spent Sunday in Dothan with Mr. & Mrs. Levi Throver.

Mr. & Mrs. Harold Moody of Montgomery spent last weekend with his parents Mr. & Mrs. J. W. Moody.

Dr. & Mrs. E. E. Somerset and son John of Birmingham, Mr. & Mrs. E. E. Somerset of Tallahassee, Fla., Rose Wise of Quincy, Fla., Mr. & Mrs. Julius Young and Merilyn of Montgomery were home Sunday for the 62nd wedding anniversary of their parents and grandparents.

Mr. & Mrs. C. C. Brannon have returned from Sheffield, Ala. where they were called on account of the death of her father, Mr. Winston.

**Church Group Guests**  
**Of Mrs. Rebecca Davis**

The Idle Whelan Circle met Monday night, Oct. 17 in the home of Mrs. Kelley with Mrs. Rebecca Davis as hostess. The devotional was given by Mrs. Davis. Mrs. George Hocutt gave the lesson on the Mission Book "World within a World".

During a social hour a dessert with hot coffee was served to Mesdames J. W. Moody, Kendrick, Hendrix Jeter, George Hocutt and Nadine Parker and the hostess.

**Wanted—Man Living in Coffee or Geneva County**

This is for salesman to work RFD territory. Must have had previous house to house selling experience and furnish proof of past record for honesty and accomplishments. Salary, mileage and other expenses away from home. Permanent work. Good future for right man.

Make application by letter, giving age, previous experience, employer references, etc. to A. D. Potter, Circulation Manager, The Advertiser, Box 950, Montgomery, Alabama.

## Hubert Barnes Farm, Mt. Zion Community

## Rental Factors Important

have reached the level where they become a factor in the making of new rental agreements.

This is the time of the year when farm tenants and landowners usually revamp the leases or other agreements for sharing costs, labor, and profits in farming operation. And, according to API Extension Economist Roy Helms, planning for maximum efficiency is more important than ever before.

In explaining the present situation, Helms pointed out that the custom of tenant and landowner sharing in costs according to their contributions remains unchanged. But lower prices for the things farmers

## FARM BRIEFS

In most years about 45 percent of the country's corn crop is sold through hogs.

Because labor costs are advancing whereas prices on manufactured goods have declined a bit, tenants may find that their contributions to the farming program have become more valuable to the partnership than in the past, Helms added.

Don't paint galvanized roofs until they are at least a year old. Etching of sun and rain makes paint adhere to the roof more readily.

What you see here is automobile history in the making. For this is an actual on-scene shot of a camouflaged '56 Chevrolet shattering the Pikes Peak record in a dramatic, top-secret run, supervised and certified by NASCAR.

Here's record-breaking proof that this '56 Chevrolet has the power, cornering ability, and sureness of control that will make your driving safer and more fun. And you can see and drive it soon now. Just wait!

National Association for Stock Car Auto Racing whose officials issued and certified the performance of this reproduction model.

A RECORD-BREAKING NEW CHEVROLET  
**FRIDAY, NOV. 4**

The hot one's  
even hotter!

**Dorsey Bros. Chevrolet Inc.**

## Peanut Threshing in Full Swing Here

The Alabama Weekly Crop Report for the seven days ending Oct. 17 states that the average temperature for the week was below normal; however, on the breaking yields have been considerably above normal. Rainfall was in the form of moderate scattered showers during the latter part of the week. The majority of the precipitation was in the south and central counties. Most of the state continues to need a general rain.

CORN HARVEST has moved along through the state, being hindered very little by the showers. Picking is mostly complete in the state continues to need a general rain.

SOYBEAN harvest continues with some hindrance from showers. Most of the current harvesting activities are in the north and west.

To hasten growth of leafy vegetables before real cold weather comes, side-dress with one pint of nitrate of soda or the equivalent.

Pullets going into the laying house should be provided with litter six to eight inches deep. This should last the entire year.

All stalks and other crop residue should be cut or disced down as soon as crops are harvested. This practice conserves soil and water and promotes stalk decay.

Use of pyralis poison, both dry and in water, is recommended for control of rats and mice in five to seven days.

Don't paint galvanized roofs until they are at least a year old. Etching of sun and rain makes paint adhere to the roof more readily.

maintained on pastures, herds are losing weight. Very little HAYMAKING was reported. Most farmers have an ample supply for the coming winter months.

SEEDING OF SMALL GRAIN and winter COVER CROPS continues when there is enough moisture. Some of the earlier seedings are coming up in fair to good stands after recent rains.

"THE WORST EVILS ARE THOSE THAT NEVER ARRIVE"

Do you know anyone who is always worrying about some possible ailment they are not sure they have? Tell them that Medical Science is now able to almost perform miracles of accurate diagnosis.

Modern research has not only discovered medicines that can help or cure illness, but many man-made chemicals can disclose to your physician whether you have a particular ailment or not.

Your supposed "Evil" may never arrive. Relieve your mind. Tell your Physician what you think may be wrong. He will soon know the right answer.

Modern research has not only discovered medicines that can help or cure illness, but many man-made chemicals can disclose to your physician whether you have a particular ailment or not.
